**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Michael D. Specht on 8 July 2008.

The application has been amended as follows:

In claims 1 and 8, at the end of each claim, delete the period and add “; wherein M and N are adaptively varied depending upon the relative attenuation and gain desired for the modem receive and transmit signals.”

#### **REASONS FOR ALLOWANCE**

2. The following is an examiner's statement of reasons for allowance: The instant application discloses a circuit for decoupling the gain of transmit and receive signals of a broadband modem. A search of prior art records has failed to teach or suggest a circuit: "wherein a turns ratio of said linedriver coil to said line coil is 1 :N and a turns ratio of said receive coil to said line coil is M:N; wherein M and N can be varied depending upon the relative attenuation and gain desired for the modem receive and transmit signals" as disclosed in claims 1 and 8.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

#### **CONCLUSION**

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lawrence B Williams whose telephone number is 571-272-3037. The examiner can normally be reached on Monday-Friday (8:00-6:00).
